- No
- no
- Nothing
- Not his fault but if the classes were half an hour longer we would be able to get through all the content
- Not to do with his teaching, but time of class should be extended.
- Often we do not get through the whole problem set, I think he could go a bit faster on the questions everyone understands. I think it would be useful to have longer classes and to have additional challenging questions for the classes
- Sometimes he doesnt go through everything in class like the MCQs since he had no time left. A faster paced lesson might be better.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
